I think about time a lot.

What IS time, exactly?

Is there only one way to SEE time?

Are there

many different versions of time?

And most importantly

How did I screw up so badly?

UAAUGH
I CAN'T BELIEVE

IT TOOK THIS LONG TO GET HERE!

AND WHAT A BIZARRE PLACE FOR A LABORATORY, TO BOOT.

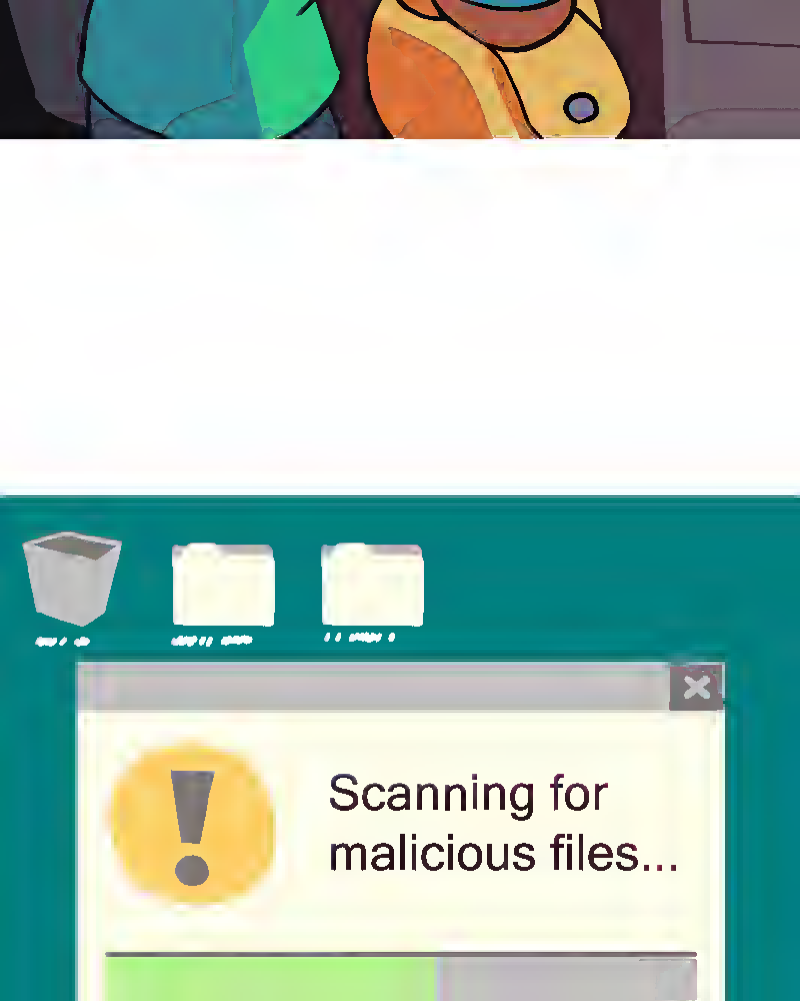
H-HELLO? ...

NO-ONE'S AROUND.
THAT MUST BE THE COMPUTER.

OKAY! BETTER GET CRACKIN' BEFORE FIXIT TEARS ME A NEW ONE.

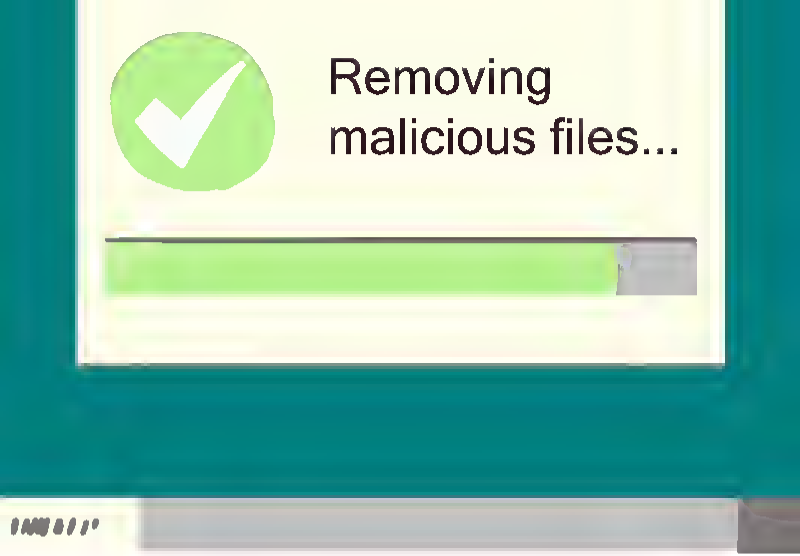
WOAH, WHAT A

WOAH, WHAT A CLUNKER! MUST BE 10 YEARS SINCE I'VE LAST SEEN ONE OF THESE.



Scanning for
malicious files...

There's something you should know about Mr. Fixit's computer repair.



We do remove viruses, yes.

But we also install one of our own -- ***timebomb.exe***

It **takes** all of the viruses that we removed, **stores** them, and **releases** them back into the system after a random time interval

random time interval.

Usually at least a month or so, to avoid suspicion.

It keeps our regular customers coming back to us every time.

The explosion was massive. I was just glad to make it out in one piece.

But I didn't.
